## **PRESS CLIPPINGS**

---

### **'London's 100 best alternative therapy experts'**

"Which holistic doctor does Kate Moss favour? And which healer does Madonna turn to? London now has more complementary therapists than GP's.

We name the best in a two-part guide .... **Alison Hamilton Baily"**

(Evening Standard Tuesday, 8<sup>th</sup> May 2001)

---

### **'About Homoeopathy'**

"Dear editor

I have been using homoeopathy for about seven years now. I have seen it work time and time and can really vouch for it. I have always used a professional, trained homoeopath. I go and see her regularly, now more as prevention, as my children's immune system is so much stronger.....

I have seen my child scream with a bad ear infection which was cleared in a matter of hours, yes, hours by my homoeopath."

My homoeopath is **Alison Hamilton-Baily, City Health Partnership"**

(Taken from 'Families' Magazine - November 2003)

---

### **'Giving Birth Homoeopathically'**

"The Memory of giving birth to my daughter Georgia is still fresh in my mind even as we approach her first birthday. It was a wonderful experience and I credit much of the good memories to Homoeopathy – it gave me choice and helped me have a more gentle labour and quick recovery.

It is testimony to my confidence in my homoeopath and allowing her to provide a number of well chosen remedies that my labour, recovery, and most importantly the health of my child have been so good." Nicola Lloyd.

Nicola's homeopath is **Rebecca Douglas** at **City Health Partnership**
